

`_fork_init`

```
graph LR; A["_fork_init"] --> B["ibv_fork_init"]; B --> A;
```

The diagram consists of two rectangular boxes connected by two horizontal arrows. The left box is light gray with a black border and contains the text `_fork_init`. The right box is white with a black border and contains the text `ibv_fork_init`. A dark blue arrow points from the right side of the left box to the left side of the right box. A second dark blue arrow points from the right side of the right box to the left side of the left box, indicating a bidirectional relationship or dependency between the two functions.
